

ES4018 Tested and certified tooling

Ensuring your tooling is up to date and certified

Engineered solution purpose

This engineered solution has been introduced to ensure that the safety requirements for the installation and repair of all Rolls-Royce equipment are current.

Applicability

All Rolls-Royce equipment

Technical description

Test and certify all Rolls-Royce tooling.

Benefits

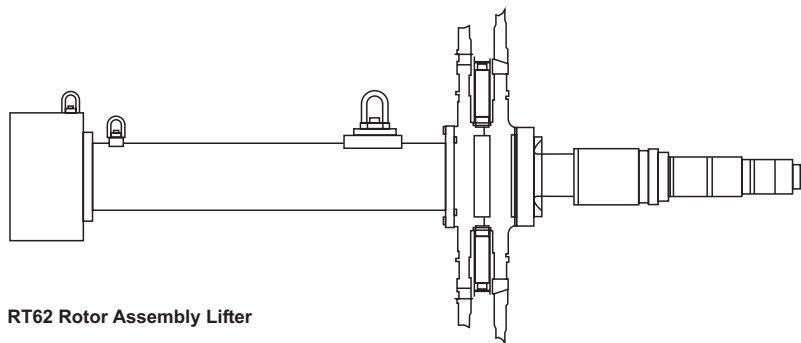

This engineered solution eliminates any threats to the safety of both equipment and personnel during lifting operations.

Experience

The projects listed below are not an all-inclusive list, but are representative of projects where this upgrade has been applied:

PG&E - 10

TCPL - 5

RT62 Rotor Assembly Lifter

Scope of work

Replace older lifting tooling with new tested and certified tooling.
